

Proposed Analytical Framework: To approach Informality with the lens of accumulation processes

Classification of Major Indian States

based on Per capita income and Relative Surplusness of Labour (RSL) in Agriculture in 2011-12

	Low Per capita Income	High Per Capita Income
High RSL in Agriculture	<p>Group A</p> <p>Jharkhand (4) Odisha (5) Chhattisgarh (7)</p>	<p>Group C</p> <p>Karnataka (11), Uttarakhand (14) Himachal Pradesh (15), Tamil Nadu (16) Gujarat (17) Maharashtra (18)</p>
Low RSL in Agriculture	<p>Group B</p> <p>Bihar (1) Uttar Pradesh (2) Madhya Pradesh (3) Rajasthan (6) Jammu & Kashmir (8) West Bengal (9)</p>	<p>Group D</p> <p>Punjab (12), Kerala (13) Haryana (19)</p>

- For a given sector, **RSL =**

$$\frac{\text{Percentage share of employment to total employment}}{\text{Percentage share of output to total output}}$$

- Numbers in the parentheses are ranks of per capita GSDP arranged from low (1) to high (19)
